ISO 14001:2015 and IATF 16949:2016 TRANSITION CERTIFICATIONS

Dear Customer,

We are pleased to inform you that Tucker Industries has completed its ISO 14001:2015 and IATF 16949:2016 transition audits in early August of 2018.

Our ISO 14001:2015 certificate is posted on our website at www.TuckerInd.com.

Because of the high number of companies transitioning to IATF 16949:2016 the release process is taking longer than anticipated.

Assisting us in meeting our customers' requests our registrar is providing Tucker Industries with a letter of confirmation of the ongoing certification process IATF 16949 explaining the delay. The letter which will carry us until our certificate is released is included here for your convenience.

We appreciate your patience and we look forward to providing you with continued value added products & services.

With Best Regards,

Tucker Industries, Inc.

Confirmation of an ongoing certification process IATF 16949

Dear Mr. Tucker,

We are happy to confirm that Tucker Industries has completed the IATF 16949 transition audit on time.

The case is currently being processed by us. Due to the capacity constraints generally to be expected during the transition phase, the IATF explicitly highlights in its "Transition Strategy ISO/TS 169499 > IATF 16949, Rev. 6" (<https://www.iatfglobaloversight.org/iatf-169492016/iatf-16949201-iatf-transition-strategy>) that companies may have periods of being uncertified.

Explicit reference is also made in the Transition Strategy to the possibility that the certification decision by the certification bodies may be issued no later than 120 days from the last day of the transition audit.

Naturally we will do everything in our power to issue IATF 16949 certificates before the 120 days are up. Tucker Industries shall receive our decision concerning your new IATF 16949 certificate as soon as possible and submit it to you.

Best regards

Thomas Thees
General Manager
